In the Fertile Wheat Fields of Western Canada.

To the Editor: The emigration of well-to-do farmers from the United States to the Canadian Northwest has assumed such proportions that organized efforts are now being made by interested persons and corporations to stem the tide. The efforts are being initiated chiefly by railway and real estate interests in the states from which the bulk of the emigration takes place. The movement of population has taken from numerous states thoueands of persons whose presence along rallways in these states made business for the transportation companies. The movement has also become so widely known that it has prevented the settlement of vacant lands along these lines, parties who might have located there being attracted to the free and more fertile lands of Canada. The result of the movement has been that the rallway companies not only see the vacant lands along their lines remain vacant, but they also see hundreds of substantial farmers who have helped provide business for these railways move away and so cease their contributions. The farmers have moved to Canada because they were convinced that it would be to their financial interest to do so. In moving they have been inconsiderate enough to place their own financial interests before those of the financial interests of the railway corporations.

In addition to the railway corporations, real estate dealers are working to stem the flow of emigrants. Of course every emigrant who goes to Canada means the loss of commissions on land deals by real estate dealers, Now a person has but to know what the interests are that are trying to | stop the flow to know what motive is influencing their course. The emigration means financial loss to railway corporations and to real estate men. These interests therefore are not directing their opposition efforts out of any love for the departing emigrants or out of any high patriotic motives either. They are doing so purely from selfish interests. It is a matter of dollars and cents with them. They are so patriotic, they are so consumed by love for their fellow-citizens, that they want to prevent these fellow-citizens going to Canada and getting free farms of the best wheat land in the world, and instead they want to make them stay on high-priced farms in the United States, where they will continue to pour money into the pockets of these railways and real estate men.

One of the methods employed by these interests to stem the tide is the distribution of matter to newspapers, painting Canada in the darkest colors. These articles emanate chiefly from a bureau in St. Louis. They are sent out at frequent intervals for simultaneous publication. A writer is employed at a high salary to prepare the matter.

Moreover, statements absolutely at variance with the truth have lately been published broadcast. These appear chiefly in what purport to be letters from persons who are alleged to have gone to Canada and become disgusted with it. Only a few of such have been published, and they contain statements that are absurd in their falsity. Whether the parties whose names appear in connection with those letters have ever been in Canada, and, if so, their history while there, is to a bulletin giving in detail the benefacbe thoroughly looked into. The dis- tions of Andrew Carnegie. These bencovery of their motive, like the disrovery of the motive of the interests tho are engineering the opposition, may prove illumining. In the meantime, however, it may be pointed out that only a few of such letters have appeared, but since 1897 over 87,000 American settlers have gone to the Canadian West. Can any reasonable person suppose for a moment that if Canada was one-quarter as bad as represented in these letters the \$7.000 Americas now there would remain in the country; or, if the Canadian West had not proved the truth of all that was claimed for it, the papers of every state in the American Northwest would not be filled with letters saying Indiana Man Punishes Himself for so? Imagine 87,000 aggressive Americans deceived and not making short shift of their deceivers. The fact is the 87,000 are well satisfied and are encouraging their friends to follow

Anyone who sees any of these disparaging letters should remember that it is railway and real estate interests who have from purely selfish reasons organized a campaign to stem the flow to Carada. If Canada were half as bad as represented there would be no need of such an organization. The fact that such exists is of itself a magnificent tribute to Canada. Finally it should not be forgotten that the letters published are brimful of falsehoods, and that 87,000 satisfied Americans in the Canadian West constitute a living proof that such is the case.

The Canadian Government agent whose name appears in advertisement elsewhere in this paper is authorized to give all information as to rates and available lands in Western Canada.

Vessel Which Took Part in Battle of Manila Boy Floated and Beached.

The warship Reina Christina, flagship of Admiral Montejo, which was sunk by Admiral Dewey, was floated and beached Monday. The skeletons of about eighty of her crew were found in the hulk. One skeleton was evidently that of an officer, for it had a sword by its side. There are fifteen shell holes in the hull of the Reina Christina, one made by an eightinch shell and others smaller. The main injection valve is missing, showing the ship was scuttled and abasdoned. The hull is in fair condition. Captain Albert R. Couden, commanding the naval station at Cavite, took charge of the remains of the sailors, expressing a desire to give them an American naval funeral. The Spanish residents are anxious, however, to ship the skeletons to Spain, and it is suggested that the transport Sumner convey them to Spain by way of the Suez canal in June. A wrecking company is endeavoring to raise all the sunken Spanish warships.

Take Doan's Kidney Pills in time and the cure is simple.

J. F. Walnwright, of the firm of Bones & Wainwright, painters and contractors, Pulaski, Va., says: "Four or five times a year for the past few years I have suffered with severe at tacks of pain in my back, caused from kidney trouble. During these spells I was in such misery from the constant pair and aching that it was almost impossible for me to stoop or straighten and it really seemed as if the whole small of my back had given away. At times I also had difficulty with the kidney secretions which were discolored, irregular and scalding, and I was also greatly distressed with headaches and dizziness. I used a number of recommended remedies but I never found anything so successful as Doan's Kidney Pills. When I heard of them I had an attack and procured a box of them. In a few days the pain and lameness disappeared, the trouble with the kidney secretions was corrected and my system was improved generally. I have every confidence in Doan's Kldney Pills."

NOT MEANT FOR THE HOUSE.

Mistake Put Kansas Statesman In - Embarrassing Position.

Representative A. D. Morris of Schuyler county had an experience in the House the other day that was somewhat mortifying to him for a short time. He had been writing a letter to his wife. In his haste to prepare an amendment to a resolution that was pending he mistakenly wrote it on the back of a sheet of paper in the letter and sent it to the clerk's desk. He arose at the same time and said: "Mr. Speaker, I wish to offer an amendment." from Schuyler Mr. Morris Pro Tem. Duncan. "Read it, Mr. Clerk." Clerk Jeff Pollard, with a quizzical expression, began in an unusually loud voice: "My dear Maggie-I find myself awfully lonesome here without you-" "Hold on, there, Mr. Clerk," yelled Morris. not right. That's the wrong side." The House held its sides to laugh, while Morris sunk into his seat a very red face, and Clerk Pollard tuned the paper and began to read

A Number of People Escaped Death By Rushing Into Cellars-Much Damage to Farm Property and Residences.

One death, a fatal injury and a score or more of injuries resulted from a tornado that swept Logan, Dewett and Platt counties, Illionis, Sunday afternoon. The fatality occurred in the Halsadarser settlement, a farming community three miles from Atwood, Platt county. The home of Clifford Halsadarser was demolished and after the storm Halsadarser's infant son was found dead 300 feet from where the house stood. His wife was hurled across the street and fatally injured.

LAUGH AND BE WELL.

Effective Prescription That Should Be

Easy to Fill. Be jolly by all means. The latest is the "laughter cure," which has the merit of being rational if nothing else, for from time immemorial the effect of a good hearty laugh has been regarded as a healthy tonic for the melancholic and a restorative for the depressed.

Another ancient physician recom mended a good laugh as a powerful means of "desopilating the spleen," whatever that may mean; while a third writes of laughter as "a mighty stimulant to the liver and a lifter-up of the heart." Coming to more recent times, Foussagrives believed mirth to be the most powerful lever of health, while Tissot claims to have cured scrofulous cellidren by tickling them and making them laugh.

Drug Drinking in London.

The new license act in London has brought to light the fact that a great quantity of drugs that cannot brought within the meaning of the act as intoxicants are drunk by people, upon whom it has the effect of habitual drunkenness. Among things test are thus consumed are methyle ed spirits and ean de cologne, and the practice is especially prevalent among society people, chiefly women, who would resent the imputation that they were drunkards.

QUIT AND EAT.

Some Coffee Tales.

Show a woman an easy, comfortable and healthful way to improve her complexion and she is naturally interested.

Coffee is the one greatest enemy of fair women, for in the most of cases it directly affects the stomach producing slight, and sometimes great congestion of the liver and therefore causing the bile to be absorbed into the system instead of going its natural way. The result is a sallow, muddy skin and a train of diseases of the different organs of the body which, in all too many cases, develop into chronic diseases.

A lady speaking of how coffee affected her says: "I was very fond of coffee but while drinking it was under the care of the doctor most of the time for liver trouble, and was compelled to take blue mass a great deal of the time. My complexion was bad and I had a pain in my side steadily, probably in the liver. "When I concluded to quit coffee

and take Postum Food Coffee I had it made carefully and from the very first cup we liked the taste of it better than any of the old coffee,

"In a short time the pain left my side and my friends began to comment on the change in my complexion and general looks. I have never seen anything equal to the good I got from making this change.

"A young lawyer in Philadelphia named ----, whose life was almost a burden from indigestion and its train of evils, quit coffee some months ago and began on Postum Food Coffee. He quickly recovered and is now well, strong and cheerful and naturally

loud in his praises of Postum. "Another friend, an old gentleman of seventy, named ----, who for yearssuffered all one could suffer and live, from dyspepsia, and who sometimes for weeks could eat no bread or solid food, only a little weak gruel or milk, quit coffee upon my recommendation and took up Postum. He began to get better at once. Now he can eat rich pastry or whatever he likes and is

perfectly well." Names given by Postum Co., Battle Creek, Mich.
